SUMMARY

Enthusiastic and self-driven Computer Science undergraduate with strong problem-solving skills and a solid grasp of programming, web development, and software fundamentals. Quick to learn, adaptable, and passionate about applying technology to solve real-world challenges. Committed to continuous growth and contributing effectively in collaborative environments.

EDUCATION

Secondary Education, Netaji Pilot school (GPA: 98%)

Jun '19 — Apr '20
Nellore, India

- Completed SSC from Netaji Pilot School, Andhra Pradesh State Board in 2020.

Senior Secondary, Krishna Chaitanya Junior College (GPA: 76%)

Sep '20 — May '22
Nellore, India

- 10+2 (MPC) – Krishna Chaitanya Junior College, Andhra Pradesh Board, 2022.

B.Tech in Computer Science Engineering, Vel Tech Rangarajan Dr. Sagunthala R&D Institute of Science and Technology (GPA: 7.79)

Aug '22 — May '26
Chennai, India

- CGPA: 7.79

PROJECTS

Restore Elevating Restaurant Dining Experience Through Customer Feedback

Jan '25 — May '25

- Technologies used:** HTML | CSS | JavaScript | Node.js | GenAI API | Python.
- Improved automated sentiment processing and reduced manual verification effort by integrating a GenAI API into the feedback module, cutting release cycle time across iterative builds using Node.js and Python automation scripts.
- Diagnosed [N] defects across API endpoints by analyzing logs and testing outputs against functional specifications before each release, applying systematic issue-identification practices aligned with incident management workflows.
- Authored comprehensive documentation covering program logic, coding changes, and correction logs to support end-to-end application lifecycle management for all stakeholders.

Fingerprint Voter Identification Safeguarding Elections Against Fraud

Jul '24 — Nov '24

- Technologies used:** HTML | CSS | JavaScript | Node.js.
- Reduced classification discrepancies across [N] datasets by implementing core business logic for fingerprint-based voter verification in Node.js, with structured defect reporting to maintain system reliability.
- Maintained build quality by executing manual test-case reviews and unit testing cycles within an Agile workflow, contributing to incident management practices and cross-functional code review processes.
- Tracked daily testing progress against targets through authored status reports, mirroring production-level monitoring and performance optimization documentation.

SKILLS

Programming Languages java

Web Technologies HTML, CSS, JavaScript

Databases SQL, MySQL

Version Control Git and Git hub

Tools MS Office 365

Soft Skills Interpersonal Skills, Self-Learning, Problem Solving, Teamwork, Active Listening, Adaptability

Languages English

CO-CURRICULAR ACTIVITIES

Volunteer, Active UBA Volunteer

Maintained accurate records of [N] community outreach interactions, ensuring data confidentiality and adherence to program guidelines — directly mirroring vendor account record management in Accounts Payable processes.

- Strengthened written and verbal communication skills by coordinating with stakeholders and documenting interaction outcomes using MS Word and Excel, supporting good communication and follow-up practices.

First Prize – Intercollegiate Technical Event

Vel Tech — secured first place in a competitive technical event, demonstrating strong analytical and communication skills under pressure.

CERTIFICATIONS

Java Full Stack, Wipro TalentNext
